STAT

MEMORANDUM FOR:

Director, Intelligence Community Staff

THROUGH:

Chief, Administrative Staff

SUBJECT:

Release of Funds to Augment Current Contract with Booz-Allen & Hamilton, Inc.

1. This memorandum requests the release of \$33,744 in FY 1985 funds to augment Contract No. 84-B953809-000 with Booz-Allen & Hamilton, Inc. The purpose of this action is to provide additional analytical and software development resources to support the expansion of ad hoc COMIREX reporting capabilities and to analyze the commonality between future requirements forecasts, simulation data bases, and the current operational requirements data base. Details are provided in the attached proposal.

2. Funds for this effort will become available in the near future as a result of a reduction in scope of a current contract with [redacted]. Your approval to proceed, subject to the availability of these funds, is requested.
